● Stephen Shore London

Stephen Shore is the master of plain-spoken photographs that transform everyday scenes into something greater than the sum of their parts. This show bookends his career to date. At one end, the trailblazing *American Surfaces* and *Uncommon Places*;

and at the other are his recent projects exploring Israel, Abu Dhabi and

the Ukraine. Eschewing chronology however, the photographs are arranged according to type. So, for example, the cool greens of a shirtless poolside lounge in Palm Beach echo the green silhouette of a Muslim woman in Israel (pictured). ss *Sprüth Magers, Tue to 11 Jan*
